Interfaces
Concurrency
Statically typed

Efficient website
back-ends.

Objects
Scripting
Dynamically typed

Convenient
scripting.

Lists
Functional
Dynamically typed

Experimenting
with languages.

Functional
Type-oriented
Statically typed

Experimenting
with functional
programming.

Logic
Declarative
Dynamically typed

Sophisticated
databases.

Themes

- **Syntax** for expressing computation
- **Static** (compile-time) vs **dynamic** (run-time)
- **Functional programming**
- Efficiency matters, but is not our major concern
 - Exploring the various ideas and features is our priority
